NEW WESTMINSTER, WEDNESDAY, NOV. 8, 1865.

BY MAGNETIC TELEGRAPH!

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

New York, Nov. 3.—A Washington special despatch of yesterday to the Times says: Gen. Briscoe's case is still before the Secretary of War. Brig-Gen. H. A. Barnum, formerly of the twentieth army corps, now commanding one of the districts of the East, has been promoted Major-General of Volunteers. Secretary McCullough and the Commissioner of Internal Revenue have tendered considerations for a circular regulating trade between the United States and Canada. The circular will be issued in a day or two. The Times' embassy entertained a large number of officers last night in this city. The record in the Wertz case reached the President this evening, but has not been acted upon yet. The Washington special despatch to the Herald says the conservative people can take heart; the prevalent rumours in reference to the sentence of Wertz has no foundation. Statements are made that the President has the Andersonville jailer's case under close advisement with a view to mitigate as much as possible his punishment. The Wertz trial did not bring out as much as was expected to implicate the rebel authorities in the Andersonville atrocities. The trial was a sort of failure, according to the reports of the Radicals. Those who knew the feeling of the executive authorities say that Wertz's punishment will not be death by hanging. The Tribune's special despatch says Wertz has been fed on hospital diet, at the Old Capitol; but yesterday he was put back on regular army rations in consequence of the surgeon pronouncing him recovered. When breakfast was presented he flew into the greatest rage, pronouncing the feeding of a prisoner upon such food an outrage upon him, and disgraceful to a great nation. Freedmen's affairs on the western frontier of Arkansas are represented as unfavorable. Garratt Davis and Brutus Clay having sued Gen. Palmer and Birdseye for abducting slaves. A counter suit has been brought before the Freedmen's Bureau against Davis and Clay for leading blacks to labor without pay, in violation of the laws of the United States. It is understood Gen. Longstreet arrived in Washington on Wednesday and is anxiously desirous of obtaining a pardon in order that he may be a candidate for Governor of his State or be President of an express company. —100 females and 24 males were discharged from the Treasury Department to-day, partly on account of work and partly to make vacancies for the soldiers. Similar discharges were made yesterday by Gen. Leslie, Chief Paymaster of the District of the East. The World's special says the Navy Department has ordered the sailing to take place of the Albatross and Wapacka, as soon as the former's engines can be put in order. The Post-office Department yesterday transferred the great southern mail to the Richmond, Fredericksburg and Potomac line, by which it reaches Richmond 9 hours sooner than by any other route. —G. W. Spangler to-day ordered that the sailing of a defaulting national bank ceases the moment it fails to pay its liabilities; up to present time but one has failed.

New York, Nov. 3.—The Richmond correspondent of the Herald states that B. Fabran, charged with frauds in the New York Custom House, has been arrested there. It is alleged that he was connected with an extremely full shipment of alcohol. Paymaster Binney has been offered the alternative of restoring to Government certain funds and be honorably discharged, or take the chance of a trial.

SECOND DISPATCH.

SAN FRANCISCO, Nov. 3.—The screw steamer Ajax returned from Monterey, with the excursion party, at an early hour this morning, having made remarkably fine time both ways, and shown herself an extremely fast ship, and thoroughly trustworthy vessel. —One of the crew of the British ship Anita, while working at the main-top-gallant-mast-head yesterday, fell to the deck, striking the mizen-stay-sail as he went down; he was taken up injured fatally, and conveyed to the hospital. —Alexander Smith was arrested on Beale street last evening on a charge of incest—his own daughter being a witness in the case. A paragraph recently passed the rounds of the press, announcing that orders had been received at Mare Island to prepare barracks for 7000 marines; subsequently the story was denied. We learn from Washington that the Navy Department, several weeks ago, sent to the Mare Island navy-yard for plans and estimates for the erection of barracks to accommodate 7000 sailors, not marines. Monitor Cananche is still at Mare Island ready for service, and in condition to be placed in our harbor at six hours' notice should there be occasion for it. Every few days steam is got up in her to test the working of her engines and machinery and to keep everything in proper condition. Target firing is also practiced occasionally to perfect the men in the proper management of the guns. —John H. Scranton, formerly a prominent steamboat proprietor in Oregon and Washington Territory, died at Madison, Conn., Sept. 30.—Legal Tenders, 69¢ was bid, 70 asked—showing a slight falling off.

Markets.—Butter—50 firkins choice New York, sold at 22¢. Coal Oil—Jobbing at \$1 60—90 cases Doves, ex ship, prior to arrival, brought \$1 20. Mackerel—Sales 569 kits No. 1, at \$3 now held higher. Soap.—The market is heavy, and lower by auction 50 boxes at 13¢. Flour—Demands are not quite so brisk, but previous prices are sustained; we quote the range extra \$8 62½ to \$7 00 per bbl.; the latter, however, on outside figures and \$6 00 to 25 for superfine in half and quarter sacks. Wheat—Within a day or two 10,000 sacks have been sold on private terms; to-day 1400 sacks No. 1 sold at \$1 97½ per 100 lbs. Barley is in brisk demand for export and market remains firm—sales 1200 sacks prime, chiefly for New York at \$1 00; also 1200 to feed, 95 cents per 100 lbs. Oats—Sales include 816 chicken gunnies at 47¢, 600 at \$1 45 per 100 lbs., from fair to choice. —Sailed, Nov. 3d, bark Rival, Puget Sound.

PROSPECTUS

Queen Charlotte Coal Mining Co.
(Limited.)
Capital, £30,000 in 15,000 Shares of £2 each.

Incorporated under the British Columbia Joint Stock Companies' Act, of 1859, which specially limits each Shareholder's liability to the amount of his Shares.

DIRECTORS:

Thomas Trounce, Esq., Chairman.
Jas. Dickson, Esq., M. D., C. Hounslow, Esq.,
Wm. P. Sayward, Esq., Jas. Moorhead, Esq.,
J. B. Timmerman, Esq., C. Veroydhen, Esq.,
Wm. P. Sayward, Treasurer.
J. S. Willis, Secretary.

BANKERS:—Bank of British North America.
TEMPORARY OFFICES:—Columbia St., New Westminster, and Langley St., Victoria.
MINING SUPERINTENDENT:—Geo. Robinson, Esq.

THIS COMPANY HAS BEEN FORMED FOR THE purpose of developing and working several seams of Anthracite Coal, lately discovered in Queen Charlotte Island.

At present this is the only mine of pure Anthracite Coal known to exist on the Pacific Coast, and from the large and increasing quantity required and shipped to San Francisco and other ports, the discovery is one of great importance and value.

The Company have had reserved to them by the Government twenty thousand acres for mining purposes, five thousand of which are secured (at present) by lease at the nominal rate of \$100 per annum, with the additional privilege of purchasing 1000 acres at \$1 per acre for a town site.

The Coal seams, from 3 to 7 feet in thickness, are situated on the south of Graham Island, Queen Charlotte Group, about 2000 yards from the shore of a fine bay, and about 400 feet above the level of the sea. The construction of an easy and inexpensive tramway, about one mile in length, together with a wharf of about 150 feet projection, are all the works the Company will require to enable them to offer Coal in the markets.

The quality of the Coal has been fairly tested. The engineers of several of the steamers have pronounced it to be of the very best quality; it has also been used by the proprietors of the Foundries of the City of Victoria whose reports are annexed and declared by them to be equal if not superior to the best Pennsylvania Anthracite Coal.

The great advantage of the position of the mine cannot be brought too prominently to the notice of intending shareholders; its close proximity to the coast together with its superior quality renders it of great value; also an easy access for vessels of any tonnage, a safe and commodious harbor, perfectly sheltered and landlocked, with secure and good anchorage, will enable vessels at all seasons and weather to load at the Company's wharf.

There is a large demand for Anthracite Coal to supply Foundries, Steamers, &c., &c., in San Francisco, Portland, Victoria and other ports, all of which have to be shipped from the Eastern States or from Europe at a great expense, the selling price ranging according to quality, from \$16 to \$25 in some markets, in others higher; the trade to Panama and along the Pacific Coast will be considerable; an extensive trade will also be opened with China and Japan. The Naval Stations of England, U. S. of America, France and Russia must necessarily consume a large quantity.

Of the 15,000 shares forming the Capital Stock of the Company.

7500 are classed A (original shares), paid up to £1 and liable to additional call of £1..... £7,500 0 0
3000 are classed B to be issued at £2 per share..... 6,000 0 0
4500 classed C, (are reserved shares)..... £13,500 0 0
Or..... £67,500 0 0

ESTIMATE OF EXPENSES.
Tunnel, ———— \$2,400
Wharf, ———— 6,500
Purchase of Land, ———— 1,000
Tramway, ———— 14,000
Rolling Stock, ———— 6,500
Contingencies, ———— 20,000
\$50,000 00

Leaving a balance above estimate of \$17,500 00

expenses of \$17,500 00
The 3000 B Shares are now ready for issue, payable at 10s. each on application, and 10s. in 30 days, or at time of allotment.

The works of which the above are an estimate are in active operation, the Company having engaged and sent forward to the mine a number of skilled workmen, who are under the direction of Geo. Robinson, Esq., for many years Superintendent of the Nanaimo Coal Mines, and it is confidently hoped that by the month of April, 1866, the mine will be fully opened, and the Company prepared to supply coal at their wharf.

For reports see pamphlet Prospectus, to be had at the Company's office. oc25-1m

PROSPECTUS OF THE

BRITISH COLUMBIA

COAL MINING COMPANY!

[LIMITED].

Incorporated under the Joint Stock Companies' Act, 1856, which limits the liability of each Shareholder to the amount of his Shares.

CAPITAL ----- \$100,000,

IN 2000 SHARES OF \$50 EACH, WITH POWER TO INCREASE.

100 A. SHARES have been issued as paid up shares to the promoters of the company, as the consideration paid them for their right to 600 acres of land, &c. The remaining 200 A. shares are reserved for the general benefit of the company. 700 B. shares to be issued to subscribers, subject to payment of \$2 per share at the time of subscription, and of calls of \$1 per share, per month, until \$15 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

DIRECTORS:

CAPTAIN JAMES COOPER, Chairman;

HON. J. A. R. HOMER, M.L.C., W. CLARKSON, Esq.,
JOHN ROBSON, Esq., GEORGE DIERZ, Esq.,
JAMES VAN BRAUN, Esq.,
JOSIAS C. HUGHES, Esq., W. J. ARMSTRONG, Esq.,
JOHN PICKAVANT CRANFORD, Esq.

AUDITOR:
THOMAS MCKINLEY, Esq.

BANKERS:
THE BANK OF BRITISH COLUMBIA.

SECRETARY:
WILLIAM CLARKSON, Esq.

This company is organized for the purpose of exploring and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous indications of Coal to be found at different places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 600 acres on Coal Harbor, Burrard Inlet; also a right to mine on 600 acres on English Bay, giving to the company a coal field of 1200 acres in extent, and the British Columbia Government has pledged its support in every reasonable way.

It is the intention of the company to immediately put down a bore for Coal—the strong probability being that in less than 90 days the ground will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay or Burrard Inlet should be succeeded, as it usually the case, by thicker seams below, it must become an invaluable property. The position of English Bay and Burrard Inlet renders the harbors easy of access in all winds and seasons. The shore is bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—averaging from two to three times the prices on the Atlantic—render the prosecution of Coal mining one of the most promising enterprises of the day.

The whole of the B. shares are now offered for subscription. The monthly calls on these will be adequate to meet the current expenses of prospecting; the subscribers to these shares incur a small risk, but they get a compensation—a \$50 share for the small sum of fifteen dollars.

Parties desirous of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster.

The company have engaged Mr. John Dick, a practical coal miner of many years' experience both in Scotland and Vancouver Island, to prospect and examine the locality of English Bay and Burrard Inlet. The annexed is his report:—

"To the Board of Directors of the British Columbia Coal Mining Company, Limited.

GENTLEMEN,—After a careful examination of several square miles of the country lying to the southward of Burrard Inlet, I take pleasure in being able to state that, although owing to the general regularity and unbroken nature of the beds of strata there visible I have not been able to discover the outcroppings of any coal seam worthy of note, still there is every indication of the existence of such a seam at no great depth—say from 40 to 60 fathoms. Should my surmise prove correct there is no doubt (judging from the very trifling angle of dip and its freedom from faults and other dislocations of strata) that the field will be quite equal in extent to any yet discovered on Vancouver Island.

For the purpose of further proving the quality of the Coal and its depth from the surface, I would recommend that a series of borings be commenced at such places as, after further deliberation, I shall be prepared to point out, I am, Gentlemen,

Your obedient servant, JOHN DICK.

NEW WESTMINSTER, WEDNESDAY, NOV. 8, 1865.

THE GOLD TAX.

So much has already appeared in these columns respecting the gold tax that to say any more about it appears little less than supererogatory; and yet the knowledge that the miners as a class entertain a strong feeling of hostility to the measure, induces us to return to the subject once more. Although we have no sympathy at all with the Victoria raid, and utterly condemn the howl about depopulation, &c., and although we hold that, from their nomadic habits, so to speak, the miners are not entitled to the same weight in directing the politics of the country as are those who have adopted it as their home, yet, fully acknowledging the importance of the miners, as a distinctive portion of the community, we should desire to see their peculiar interests consulted as far as may comport with good Government, and the more permanent interests of the country. There has been a tendency to fall in to the error of believing that because the scurrilous and unprincipled sheet which was printed on Williams Creek last summer gave itself up to the most abandoned abuse of the Government, the miners were of that way of thinking—that, in fact, they were a troublesome, discontented, unreasonable set of agitators. Such, however, would be a gross libel upon the miners. We have taken considerable pains to ascertain the real state of public opinion in Cariboo; and the result is a conviction that, with the exception of the late editor of the scurrilous sheet aforesaid, and, perhaps, a baker's dozen of the "rag tag and bobtail" there was not a politician to be found amongst the miners of Cariboo. Nay, more—and we say it advisedly and without fear of contradiction—the miners, as a whole, strongly deprecated the line of policy adopted by the paper alluded to, and felt mortified to think that it might be taken as the exponent of their sentiments. We are in a position to state, with the greatest degree of definiteness and positiveness, that the only piece of legislation of which the miners complain is the gold tax; and we have reason to believe that very much of the opposition to it is attributable to the gross misrepresentation of the press, and a misapprehension of the subject itself. It can be no secret that Victoria politicians seized hold of this measure for political purposes, in order to alienate the miners from the Government, and prepare them for swallowing the political nostrums presented by a few political adventurers. Will any one, who has been an attentive observer of events, believe for a moment that Victoria politicians care a fig for the tax, upon principle? Why they never raised a single objection to the principle of the measure until after it was passed. The sole objection was that it would prove expensive and difficult of collection. But no sooner was it in operation, and the discovery made that the tax could easily be collected, without any addition to the former staff of officers, and without the expense of a single dollar, beyond the mere printing of blank permits, than the cry was got up that the measure was a gross outrage upon the miners, and they were asked, upon the strength of it, to offer the Government a general and bitter opposition. This they have wisely declined to do, although an undoubted opposition to the tax exists. Under the conviction that the Government is actuated by a sincere desire to encourage and assist the miners in every reasonable way, and that the miners, on the other hand, have no desire to obstruct the administration—are neither factious nor unreasonable—we invite their attention for a few moments to the careful and candid consideration of one or two points, which we think would assist them in properly estimating the fiscal measure which has been made such a political hobby by those who are by no means the true and honest friends of the miners. We would remind the miners of the enormous expenditure of revenue for the purpose of making roads to the mines and otherwise facilitating their working. They have been referred to California and the adjacent Territory, where no gold tax exists, as holding out greater inducements than this Colo-

ny; but, we would ask, what has the Government of these countries done in the way of making roads to the mines? In proportion to the population and revenue, comparatively nothing. Our Government has gone into road-making as no other Government has ever done. "But," we may be asked, "what has all that to do with the gold tax?" It has very much to do with it. A large debt has been saddled upon the Colony, for the express purpose of constructing roads to the mines. Some of these roads will cease to be of the slightest value to the country so soon as the diggings to which they lead shall have been exhausted. Would it be fair to other interests and other classes that all the treasure, to facilitate the extraction of which the loan was contracted, should be allowed to be swept away without the payment of any tax, and the debt shifted on to the back of the settler, who has come, or may come, to make this Colony his home? Of all classes the actual settler has the strongest claim for consideration; for, with all his enterprise, and productiveness, the miner is a mere bird of passage, here to-day, and away to-morrow. It is, therefore, the special duty of Government to encourage and protect the settlers, without whom we could never build up a Colony. It has been said, "why impose a special tax upon gold, which is an exceptional tax upon the miner? Why not make all pay alike for roads?" &c. Our reply is that to do so would be to do a very unfair thing, and decidedly to discourage settlers. Why should the farmer residing on the Yale-Lytton road be compelled to pay for the construction and maintenance of the Douglas-Lillooet road, and vice versa? Or, on what principle of fairness can the settler on the lower Fraser, who uses neither, be made to pay for both? But there is another standpoint from which we invite the miner to view the gold tax. It costs, at the lowest estimate, a dollar an ounce less to take out gold in Cariboo now, all other things being equal, than it cost two years ago. This change is mainly to be attributed to the improved facilities for getting in supplies, &c. Two years ago they got \$16 an ounce for their gold. Now they get \$15 75. Are they any worse off now with the gold tax than they were two years ago without it? No. On the contrary, they are better off. The Government has given them increased facilities to the value of a dollar an ounce, and they have only to pay 25 cents an ounce in return. Viewed from this point it will be seen that the principle of the tax is just and equitable, whether considered in its application to claims which pay large dividends, or claims which do not pay expenses. All reap the advantages of the expenditure which rendered the tax necessary, and all pay the tax in exact proportion to the gold they raise,—not in proportion to the capital they employ. Let the rate be reduced to sixpence on assayed, and a shilling on unassayed gold—what it should have been at first—and let the tonnage dues be abolished, and we venture the assertion that no reasonable man will complain of the tax; and as for the rest it would, of course, be out of the question to attempt to make laws to please them.

SONS OF SAINT ANDREW.

Do you an' dowie be his lot,
Wha' ere denies a brither Scot;
Wi' helpin' han' to share a groat,
If he has to spare o'er.

THE Annual meeting of the Saint Andrew's Society, will be held in the Hyack Hall, on Tuesday, the 14th, at eight o'clock, when a full attendance of the members is requested.

JOHN MURRAY, Sec'y.
nos 21

Public Notice.

SEALED TENDERS will be received at the Lands and Works Office, New Westminster, up to noon, of Wednesday, the 20th of December, for the construction of a Wagon Road from a point at or near Ashcroft, on the Yale-Clinton Road, to Savana's Ferry, at the western extremity of Kamloops Lake.

With each tender must be enclosed a Bond of the tenderer, and of two responsible sureties with him, for the payment to the Government of \$500 conditional on the fulfilment by him of the terms of his Tender, if accepted.

The lowest or any tender not necessarily accepted. The specifications and forms of bonds may be seen, and further information obtained at this office after the 1st December, before which date the exact termini and line of the proposed route will have been determined and staked out.

Tenders to be addressed to the Chief Commissioner of Lands and Works, and superscribed "Tenders for Wagon Road to Kamloops Lake."

By Command, JOSEPH W. TRUTCH.
Lands and Works Dept., New Westminster, 3d Nov., 1865. nos 10

Public Notice.

THE OFFICER administering the Government being desirous of encouraging the construction of a Steamboat to ply between the western extremity of Kamloops Lake and the upper or eastern end of Shuswap Lake, in connection with the Wagon Road proposed to be made from Ashcroft, or thereabouts, to Savana's Ferry on Kamloops Lake, persons wishing to undertake this enterprise are invited to send in to the Colonial Secretary's Office, by or before noon of Wednesday, December 1st, written proposals for the above service, in sealed envelopes addressed "Tenders for Steamboat on Kamloops and Shuswap Lakes."

The Government contemplate granting, as an inducement in aid of this undertaking, an exclusive privilege, for a definite period of conveying freight and passengers, between the above named points, at fixed rates; the proposals hereby invited should therefore state what schedule of fares and freights are proposed to be charged, and for what length of time; and should further specify the dimensions and accommodation of the boat to be built, and her estimated steam power and average rate of speed; as well as the number of trips to be made by her per week, and during how many weeks in the year; also the date at which the Steamer will be completed and ready to make her first trip.

The Government do not bind themselves to accept the lowest or any of the proposals that may be made in answer to this advertisement.

By Command, HENRY M. BALL.
Colonial Secretary's Office, Nov. 3d, 1865. nos 10

THURSDAY, the 9th inst., being the Anniversary of the Birth of H. R. Highness the Prince of Wales, will be observed as a holiday in the Public Offices.

nos 11 By Command, H. M. BALL.

BOOK-KEEPING AND WRITING!

CITIZENS of New Westminster and vicinity, are notified of my present intention to make New Westminster my home, so long as I receive patronage sufficient for a livelihood.

Book-keeping, properly done, should show a TRUE RECORD of one's business, as a mirror shows a TRUE PICTURE of man's physiognomy. Such I propose to do by a simple and plain mode. Double-entry Book-keeping, which is the only true and correct way to keep a set of books. It will answer the Farmer, the Mechanic and the Tradesman as well as the Merchant.

Persons wishing books opened, kept or posted—either by Single or Double-entry, accounts made out, documents copied, together with such other writing as may be desired, would do well to try the undersigned, at his office, the second door north of the Columbia Hotel.

Motions given either in Single or Double-entry Book-keeping.

Reference, by permission—Clarkson & Co. nos 10

THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of sweets. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they are afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectively improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disorder of action may always be removed by Holloway's renowned Pills. They quickly remove any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Biliousness, Loss of Appetite, Head-ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fever of the skin	Sore Throats
Blotches on the skin	Fever of the bowels	Stomach and General Secondary Symptoms
Bowel Complaints	Head-ache	Tic Douloureux
Colic	Indigestion	Tumours
Constipation of the bowels	Inflammation	Ulcers
Consumption	Jaundice	Veneral Affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness, from whatever cause
Dysentery	Rheumatism	&c., &c.

Sold at the establishment of PROFESSOR HOLLOWAY, 24, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1ld., 2s. 6d., 4s. 6d., 11s., 22s., and 33s. each Box.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.
